<b>DISCUSSIONS/COMMENTS</b>			
<p>Back area classrooms (4) were not observed during full inspection June 14, 24 due to classrooms being painted. During today's visit back 4 classrooms are under reconstruction after a flood during week of September 22. Operator indicated local health is aware and all construction is completed after child care areas, unable to observe during today's visit. Did walk through, observed walls to not be complete. Operator to notify OEC when work is completed for final inspection. Operator discussed possible expansion to second floor for school age care only. Submit notification of proposed change for physical plant and capacity Change along with a foot print for the second floor. Will need local health, building, zoning and fire marshal approval prior to OEC inspection. Local health inspection was current during June inspection, the date on the inspection report was faded and not viewable. During today's inspection noted the local health inspection date was 9/21/2022. Current inspection required.</p>
