### DISCUSSIONS/COMMENTS

Provider has a door that allows her access to the next door apartment. Agency Access was discussed; the agency is required to document this door exists and provider states it is used only for after hours so the provider can visit with family next door without having to go outside at night. Children may only be in the licensed space and never transported to the other apartment. It was discussed to put a lock with key to effectively bar access to the other apartment. During the visit, the provider allowed the agency to open the door and see to the other apartment. At every inspection the agency will ask to see the door and provider must be in compliance with access. The other apartment will not be subject to inspection unless it is suspected children are present there.  
Provider changes diapers in the bathroom as the children are toddlers and can be changed standing up.

### IMPORTANT NOTES

- *It is the provider's responsibility to ensure compliance with all local codes and/or ordinances applicable to single and multi-family dwellings. This includes but is not limited to renovation, construction or expansion of the facility as well as the installation of a swimming pool or auxiliary heater.*
- *Only the regulations marked as compliant or non-compliant were monitored or discussed.*
- *APPLICANTS –You MAY NOT OPERATE until all requirements have been met and a license has been issued by the Agency.*
