### DISCUSSIONS/COMMENTS

Reviewed BCIS account and the responsibility of the provider logging in and being aware of her status and current household members status. Statuses were reverted to AWS and WSP. Provider was unaware why. Provider attempted to reset password during visit to see her account to see the status change online. Together an email was set to OEC background check team to request support.

Reviewed what to do if a new household member arrives in the home: A notification of change with written notice of the new member is required 5 business days before the change occurs, an adult medical statement on the CT form, and fingerprints/background check one using the BCIS portal.
