DISCUSSIONS/COMMENTS

***Initial inspection was completed today; care will take place in the applicant's walkout basement. First means of egress are the 3 front windows that measure 37 inches high by 36 inches wide each that lead directly to the front lawn of the home; second means of egress is through the garage. There is also a set of stairs that lead directly to the applicant's front door.

***The applicant does not reside on a busy street.

***Applicant understands that the back room where she was planning on napping the children cannot be used for childcare at this time as it only has one means of egress. Applicant stated during today's initial she will use it for storage instead and nap the children in the main childcare space instead.

***All regulations were discussed in great detail with the applicant including safe sleep, administration of medication, approved use of a substitute, supervision, and notification of change.

***All required sample documents were also left with the applicant along with sleep sacks. A copy of the Spanish regulations were also left during today's visit.

***The only child present during today's initial was the applicant's 3 year old child.

IMPORTANT NOTES

- *It is the provider's responsibility to ensure compliance with all local codes and/or ordinances applicable to single and multi-family dwellings. This includes but is not limited to renovation, construction or expansion of the facility as well as the installation of a swimming pool or auxiliary heater.*
- *Only the regulations marked as compliant or non-compliant were monitored or discussed.*
- *APPLICANTS –You MAY NOT OPERATE until all requirements have been met and a license has been issued by the Agency.*
