### DISCUSSIONS/COMMENTS

**Discussed:**

Parents reviewing and updating enrollment and permission forms, then initial and date it at the bottom for when it was reviewed.

When wood stove is being used, children should not be in that room.

Use equipment how it is manufactured and built to be used.

Topical forms are only good for 1 year.

Parents may not write notes to allow certain sleep requirements for their own child. Notes must be from the child's doctor, must present a medical reason on the document and a start and an end date included on the note.

Water temperature must be between 60-120, watch water temp at handwashing sink for cold temperature.

Provider will be contacting BCIS for review of the fingerprinting process to renew her prints.
