DISCUSSIONS/COMMENTS

Discussed with the provider the following -
 One child's physical from 10/2024 does not state child has asthma, but physical from January 2024 does state the child has asthma. Provider has current asthma medication on site. Provider understands she will need current documentation to clarify if child does or does not have asthma. If child does have asthma, provider understands child will need a medical authorization form and a current individual care plan.
 Provider understands she may not provide care to a child diagnosed with a food allergy requiring an epi pen due to provider's epi pen certification being expired. Provider understands same child diagnosed with a food allergy- their Zyrtec expires at the end of February 2025.
 Provider understands her adult medical statement expires every three years.
 Provider understands her first aid and cpr expires in October 2025.
 Provider understands safe sleep requirements and understands follow up will be conducted to ensure compliance.

IMPORTANT NOTES

- *It is the provider's responsibility to ensure compliance with all local codes and/or ordinances applicable to single and multi-family dwellings. This includes but is not limited to renovation, construction or expansion of the facility as well as the installation of a swimming pool or auxiliary heater.*
- *Only the regulations marked as compliant or non-compliant were monitored or discussed.*
- *APPLICANTS –You MAY NOT OPERATE until all requirements have been met and a license has been issued by the Agency.*
