DISCUSSIONS/COMMENTS

• The applicant reviewed the OEC Regulations using visual aids. She received the enrollment packet, which included the Emergency Plan Form, Emergency Numbers Form, Sample Administration of Medication Policy, Safe Sleep Arrangements for Infants, Child Development Milestones, and the complete initial inspection packet. This packet contained information on capacity, the DC 136 Form, the Adult Medication Statement for Child Care form, 211 information, and other relevant documentation.

The OEC representative reviewed Safe Sleep practice with the applicant, highlighting the importance of checking on infant every 15 minutes.

The house consists of one floor and basement; however care will be provided only on the first floor. (NO basement). This area includes a living room, dining room, kitchen, bathroom, office, and two additional rooms. Each room has two exits. The room's doors have windows for supervision. The outdoor area will be in the backyard. NO cars during the hours of services.

Additional, the applicant was informed that she would receive the inspection report via email. This email will also contain a link to the corrective action plan form. She would use the form to address any necessary corrections.

The OEC representative communicate via video-call with the supervisor to show her the location.

The capacity will be 6/3.

The applicant stated that she will work Monday to Friday because she will dedicate all her time to the daycare.
