DISCUSSIONS/COMMENTS			
Continued from #111- observed climbing poles on over 3 playground, with an inner tube along base to not be secure and near tube is not fully inflated. If tube is part of the equipment it is not effective as it is partially inflated. If a manufacturer guidelines do not indicate the use of the tube it must be removed. Observed 1 crib mattress to have a tear in it. Discussions- provided policy review checklist highlighting changes to the child care regulations effective 10/16/24. Program to ensure policies are updated to reflect new requirements. Provided copy of updated OEC complaint procedure to be completed and posted where staff and parents can see it. Provided copy of Infant sleep arrangements policy. Must be posted where ever infants sleep and reviewed with Parents and all staff. Reivewed new regulations effective 10/16/24 Next lead water test must include 2 food prep sinks. Discussed importance of adequate staffing to allow for proper staff child ratio's and in the event a staff member needs to leave the classroom for any reason. Ie- bathroom, illness, emergency.
