DISCUSSIONS/COMMENTS

Discussed with provider the following;
 Observed four heaters in childcare areas. Two heaters have mesh firmly installed on the outside of wooden slats preventing children from touching heaters. Heater by entrance to home has a small piece of mesh that has a rip. Provider understands she must repair rip and submit a photo prior to approval. Heater in living room area has a retractable gate preventing children from touching heater. Heater in kitchen has a gate surrounding it. Provider understands gate must be firmly installed and photo must be submitted prior to approval. One additional heater in kitchen is inside of wall not posing hazard to children. Licensing specialist will follow up with provider if woodstove in additional living room needs to be dismantled.

IMPORTANT NOTES

- It is the provider's responsibility to ensure compliance with all local codes and/or ordinances applicable to single and multi-family dwellings. This includes but is not limited to renovation, construction or expansion of the facility as well as the installation of a swimming pool or auxiliary heater.
- Items left blank on this form were not monitored during this visit. Only the regulations marked as compliant or non-compliant were monitored or discussed. Providers are required by statutes and regulations to be in compliance at all times.
- **APPLICANTS –You MAY NOT OPERATE until all requirements have been met and a license has been issued by the Agency.**
