DISCUSSIONS/COMMENTS

The family home care is situated on the second floor. The first room on the right, along with the living room is designated for children to play and relax. The bathroom is located on the same floor. Both the apartment and childcare rooms each have two exits. The provider informed that the basement is not part of the apartment. The outdoor play area is mostly fenced; although the provider uses a mobile fence since the area is not fully enclosed.

IMPORTANT NOTES

- *It is the provider's responsibility to ensure compliance with all local codes and/or ordinances applicable to single and multi-family dwellings. This includes but is not limited to renovation, construction or expansion of the facility as well as the installation of a swimming pool or auxiliary heater.*
- *Only the regulations marked as compliant or non-compliant were monitored or discussed.*
- *APPLICANTS –You MAY NOT OPERATE until all requirements have been met and a license has been issued by the Agency.*
