DISCUSSIONS/COMMENTS

#101 Medication Administration Record (MAR) Maintained Continuation
 When staff and provider were asked if the were children who needed medication, they said no. Then provider said there was one child. There were two bags with medication. Provider said they never had to give the medication to that child and that's why there was no medication administration record form for that child.
 New flyers for safe sleep in child care programs were given to provider today.
 Reviewed individual plans of care regulations, documentation needed, as well as documentation for administration of medications.
