DISCUSSIONS/COMMENTS

-Change of address completed for provider today. Provider will be utilizing her walkout basement for child care. The walkout basement is divided into 2 different areas; the infant/toddler area and the pre-school area. The infant/toddler room has 3 means of egress: a window measuring 27 inches in height and 26 inches wide, a door that leads directly to the provider's private backyard, and a door that leads directly to the front stairs which leads to upstairs front entrance. The pre-school area also has 3 means of egress; a door leading directly to the front yard (which is the main entrance), a second door leading directly to the children's enclosed outdoor play area, and a window that also measures 27 inches in height and 26 inches wide. There is also a long hallway that connects the two rooms making all exits easily accessible in the event of an emergency.
 -Provider does not reside on a busy street but does have an enclosed outdoor play area for the children.

IMPORTANT NOTES

- o *It is the provider's responsibility to ensure compliance with all local codes and/or ordinances applicable to single and multi-family dwellings. This includes but is not limited to renovation, construction or expansion of the facility as well as the installation of a swimming pool or auxiliary heater.*
- o *Only the regulations marked as compliant or non-compliant were monitored or discussed.*
- o *APPLICANTS –You MAY NOT OPERATE until all requirements have been met and a license has been issued by the Agency.*
