DISCUSSIONS/COMMENTS

1. Complete policy review not completed. Policies were provided during inspection and will be reviewed by licensing specialist 10/17/25 If any edits/revisions are required OEC will contact operator with policy review checklist.
 2. All items checked were either observed or discussed during inspection.
 3. Door between Toddlers and Young Toddlers Room should not be blocked, currently blocked by cabinet/cots.
 4. Gross Motor Space has multiple angles, causing potential blind spots for supervision. Must ensure that children are supervised, within sight and sound at all times. Discussion of making space smaller or using additional barriers. If mixing age groups, must use lowest ratio and maintain proper group size.
 5. Observed changing table in upper level toddler room to show signs of wear along front edge.
 6. Observed low shelf in front of Closet/Teacher Space in Young Toddler room. If you want to bar access to this space, a taller shelf or gate is required.
 7. Submit zoning approval and sketch/drawing of new playground area(s). Space will need to be inspected and approved prior to use.
 Capacity will be 38 total with a capacity of 27 under 3. Program has 4 toilets, 1 to be shared with staff and 8 hand washing sinks throughout the program space.
 Square footage report provided.
 Lower level not completed, inspected/licensed at this time. Operator must submit comprehensive lead inspection prior to approval.

NOTE: * Items left blank on this form were not monitored during this visit. * Only the regulations marked as compliant, non-compliant or not applicable were monitored or discussed. * It is the operator's responsibility to ensure compliance with all local codes and ordinances.
