DISCUSSIONS/COMMENTS

Prospective provider plans to care for children on the main floor of the home. The entrance door is on the left side of the home. The second means of egress and designated safe exit is the front door. There is also another safe egress towards the back of the door that leads to an outdoor deck and has stairs to the ground below. Provider shared she would like to care for children in the basement once she adds a bathroom in the basement. Specialist explained provider must submit a notification of change when she decides definitively to change her child care space to the basement area. Provider understands she must also request permits from the municipality before constructing the bathroom in the basement. Specialist discussed all regulations regarding basement care, notification of change, and permits for renovations and construction. Prospective provider will utilize her fenced-in backyard as outdoor space for the children. Discussed all regulations in detail and provided copies of OEC documents required for regulatory compliance. Prospective provider plans to hire a substitute or assistant. Regulations regarding nontransferability of license, responsibilities of substitutes, and responsibilities of licensed providers were all discussed in detail. Discussed maintaining evidence of flu vaccination for all enrolled children between the ages of 6 months and 59 months by December 31 annually.

IMPORTANT NOTES

- *It is the provider's responsibility to ensure compliance with all local codes and/or ordinances applicable to single and multi-family dwellings. This includes but is not limited to renovation, construction or expansion of the facility as well as the installation of a swimming pool or auxiliary heater.*
- *Only the regulations marked as compliant or non-compliant were monitored or discussed.*
- *APPLICANTS –You MAY NOT OPERATE until all requirements have been met and a license has been issued by the Agency.*
