DISCUSSIONS/COMMENTS		
Observed metal paper towel dispenser on wall in girls bathroom (not currently in use) presents with chipped paint and some rust forming. Program advised to update all policies with wording in Policy Checklist, revised 11/27/24, including professional development and educational plans, consultant agreements/services. Program updated administrative oversight and posted during inspection. Program submitted change form for new head teacher 2/25 that is not reflected on profile sheet. Head teacher certificate observed on site with change form. Program forwarded email for head teacher change directly to licensing specialist during visit. For future testing, lead water test requires two testing locations. Not applicable at this program, children bring food and drink (including water bottles from home). Program maintains documentation regarding indoor climbing equipment to ensure fall safety and has additional mats with documentation on site for when in use. Ensure that microwave is used for staff only, observed to have normal wear starting on inside door edge. Observed 4/8 staff files observed to present as non compliant on the OEC registry Licensing Orientation column. Those staff have written verification of all components required for compliance (CPR, 1st aid, med admin and health and safety training). One new staff must be added to the registry once training is completed. Director states she has tried to upload and update and has received several alerts that documents cannot be uploaded. Director has name of representative and will attempt to bring all staff current in registry. Provided OEC center regulations updates/guidance sheet, program made copy of inspection form with highlighted new regulations. Provided Records to be maintained on premises, revised 4/14/25 Program advised in process to complete and submit the affidavit and make director change.		
NOTE: * Items left blank on this form were not monitored during this visit. * Only the regulations marked as compliant, non-compliant or not applicable were monitored or discussed. * It is the operator's responsibility to ensure compliance with all local codes and ordinances.
