**DISCUSSIONS/COMMENTS**

Provider shared possible plans for a renovation of the attached garage directly adjoining her basement, the current child care area, to create additional space for child care. Specialist explained to the provider that she must first notify her licensing specialist when she definitively decides to renovate the garage by completing a Notification of Change form. The specialist also explained that the provider must also obtain any required permits from the town's municipal authorities prior to any renovation or construction on her property. The new space would also need to be inspected by a licensing specialist before it can be used for child care. The provider stated that she understands these regulations.

**IMPORTANT NOTES**

- *It is the provider's responsibility to ensure compliance with all local codes and/or ordinances applicable to single and multi-family dwellings. This includes but is not limited to renovation, construction or expansion of the facility as well as the installation of a swimming pool or auxiliary heater.*
- *Only the regulations marked as compliant or non-compliant were monitored or discussed.*
- *APPLICANTS –You MAY NOT OPERATE until all requirements have been met and a license has been issued by the Agency.*
