**DISCUSSIONS/COMMENTS**

Care will be provided in the living room and first bedroom of the dwelling. Emergency exit is towards the back of the house, passing through the provider's bedroom and leading to the backyard. There is sufficient space for a capacity of 6 + 3. The provider lives in a multi family home, and has access to basement. However, the basement is only use for storage, and it does not appear to be habitable. The outdoor play area is in the back of the house and was observed with snow, there is concrete on the ground, and as per the provider there are no hazards in the play area. Follow up inspection to be conducted.

**IMPORTANT NOTES**

- *It is the provider's responsibility to ensure compliance with all local codes and/or ordinances applicable to single and multi-family dwellings. This includes but is not limited to renovation, construction or expansion of the facility as well as the installation of a swimming pool or auxiliary heater.*
- *Only the regulations marked as compliant or non-compliant were monitored or discussed.*
- *APPLICANTS –You MAY NOT OPERATE until all requirements have been met and a license has been issued by the Agency.*
