DISCUSSIONS/COMMENTS

Full inspection was completed today. The only children present were the provider's youngest 4 children who count in her numbers as they are all under the age of 12 and are homeschooled by her husband. Provider does not currently have any outside enrollment and has not had any since becoming licensed in October 2024. All regulations were discussed with the provider in great detail with extra time spent on safe sleep, supervision, administration of medication, and notification of change. Specialist was not able to conduct a thorough inspection of outdoor play area due to it being covered in snow. Provider states she will continue to work outside of the home until August 2026 when her job shuts down for good. Specialist advised provider that prior to use of outdoor play area and children enrolling in the program she will need to contact specialist so I can return and complete the inspection of the outdoor play area and any violations cited will need to be corrected at that time. Provider understood.

IMPORTANT NOTES

- It is the provider's responsibility to ensure compliance with all local codes and/or ordinances applicable to single and multi-family dwellings. This includes but is not limited to renovation, construction or expansion of the facility as well as the installation of a swimming pool or auxiliary heater.
- Only the regulations marked as compliant or non-compliant were monitored or discussed.
- **APPLICANTS** –You MAY NOT OPERATE until all requirements have been met and a license has been issued by the Agency.
