DISCUSSIONS/COMMENTS

Outdoor area not inspected due to snow covering all surfaces and all play areas. Program maintains all documentation for rubber mulch and poured turf. Inspection will remain open until follow-up inspection of outdoor play area can be conducted. Observed Delta Portable Crib 4465-1, 566055 manufactured 10/12/05 (On site, but not currently in use-only 2 infants on-site currently and multiple cribs with compliant dates available). Recall on Delta portable 4464 series-Unclear if this crib is part of recall. Advised program to remove crib pending CPSC information and potential increased enrollment. Program has anti-choking apparatus (Angeer) on site. Current staff have been trained. All staff must be trained in how to use the device. Parents must be made aware that the device is on site and staff have been trained but that it is not part of a state of CT approved CPR/1st Aid training course. Staff are to use the device as a last resort and inform parents that it will only be used as a last resort. Observed PD to be current but not centrally-documented. Program updated forms during inspection to demonstrate compliance. Observed 2 child files to list authorized/emergency pickup as parents. Ensure files have at least one non-parental adult p/u. Observed one child file to not have start date. Ensure all fields are completed on enrollment forms. Program replaced rusty microwave observed in toddler room upon request during inspection. TA provided regarding newest regulations (2024); provided program with highlighted inspection form and the accompanying OEC CCC updates/guidance document.

NOTE: * Items left blank on this form were not monitored during this visit. * Only the regulations marked as compliant, non-compliant or not applicable were monitored or discussed. * It is the operator's responsibility to ensure compliance with all local codes and ordinances.
