DISCUSSIONS/COMMENTS

Initial inspection was completed today. Applicant will be using her living room area for childcare. Applicant does reside on a busy street but she does have an enclosed outdoor play area. A thorough inspection of the outdoor play area could not be completed during today's visit due to it being covered in snow; applicant advised during today's visit that as soon as weather permits/prior to use a follow-up visit will need to be conducted to inspect the outdoor play area and any violation cited will need to be corrected at that time. All regulations were discussed with the applicant in great detail including safe sleep, supervision, administration of medication, approved/appropriate use of a substitute, and notification of change. All required sample documents were provided during today's visit along with sleep sacks. Specialist did not leave a copy of the regulations in Spanish as the applicant already had her own printed copy. Specialist also advised applicant one household member will be turning 18 in May and criminal background check will need to be completed.
