DISCUSSIONS/COMMENTS

Provider currently has no children enrolled and works outside of her home. Provider had moved child care toys and equipment (changing table, diaper pail, chairs, potty seat, etc.) into her shed for storage and showed them to me. Provider stated that if she has children enrolled again, she will move the items back into the home for use. Discussed keeping flammable fabrics away from the furnace and water heater. Discussed that smoking is not allowed on the premises during daycare business hours. Supplied provider with new blank copies of Child Developmental Milestones form, Infant Sleep Policy form, Emergency Contact form, Adult Medical Statement form, and Emergency Plan form. Discussed with provider that if she would like to use the exit at the back of the home to get to the playground that she would need to move the cleaning supplies to a location that is inaccessible to children. A follow-up inspection will occur when weather permits to monitor the outdoor play area and body of water.

IMPORTANT NOTES

- * It is the provider's responsibility to ensure compliance with all local codes and/or ordinances applicable to single and multi-family dwellings. This includes but is not limited to renovation, construction or expansion of the facility as well as the installation of a swimming pool or auxiliary heater.
- * Only the regulations marked as compliant or non-compliant were monitored or discussed.
