**DISCUSSIONS/COMMENTS**

The provider recently added a bathroom in the basement where child care is provided for children. The provider showed the specialist documentation of successful inspection from the local building department. Reviewed the regulations for storing emergency medications and maintaining inspection documentation from local authorities for renovated spaces on the property. Provided the provider with a sample medication administration policy and blank notification of change forms. The specialist reminded the provider that her adult medical statement will expire on 11/26/2026.

**IMPORTANT NOTES**

- \* It is the provider's responsibility to ensure compliance with all local codes and/or ordinances applicable to single and multi-family dwellings. This includes but is not limited to renovation, construction or expansion of the facility as well as the installation of a swimming pool or auxiliary heater.
- \* Only the regulations marked as compliant or non-compliant were monitored or discussed.
