DISCUSSIONS/COMMENTS

Backyard was monitored for safety/hazards. A fence panel recently fell & provider temporarily secured chicken wire in its place to protect children from traffic until panel can be replaced. Provider stated that back deck stairs are inaccessible to children with a gate when outdoor play occurs. Above ground pool was not in place during inspection. If provider puts pool back up, a notification of change form needs to be submitted and a follow-up inspection will occur to monitor and measure the pool.

IMPORTANT NOTES

- It is the provider's responsibility to ensure compliance with all local codes and/or ordinances applicable to single and multi-family dwellings. This includes but is not limited to renovation, construction or expansion of the facility as well as the installation of a swimming pool or auxiliary heater.
- Items left blank on this form were not monitored during this visit. Only the regulations marked as compliant or non-compliant were monitored or discussed. Providers are required by statutes and regulations to be in compliance at all times.
- **APPLICANTS –You MAY NOT OPERATE until all requirements have been met and a license has been issued by the Agency.**
