DISCUSSIONS/COMMENTS

Follow-up inspection was needed to monitor yard that was previously snow-covered. Outdoor play space was in compliance during this visit. Provider's husband was present and gave permission for photos of outdoor staircase to be taken. Provider stated that she will prevent access to stairs on top of deck that lead to the driveway when children go outside to play. Provider also stated that children do not play on deck and only use it as an access way to the yard. If provider wants to use the deck with daycare children, she will have to block access to both sets of stairs. Also discussed necessary documentation & training if an enrolled child has asthma. Reminded provider that kitchen table, floor, and booster seats need to be cleaned after children eat.

IMPORTANT NOTES

- It is the provider's responsibility to ensure compliance with all local codes and/or ordinances applicable to single and multi-family dwellings. This includes but is not limited to renovation, construction or expansion of the facility as well as the installation of a swimming pool or auxiliary heater.
- Items left blank on this form were not monitored during this visit. Only the regulations marked as compliant or non-compliant were monitored or discussed. Providers are required by statutes and regulations to be in compliance at all times.
- **APPLICANTS –You MAY NOT OPERATE until all requirements have been met and a license has been issued by the Agency.**
