DISCUSSIONS/COMMENTS

Upon arrival prospective provider was observed in the program. The house is a one bedroom house with a basement. The emergency exit is located in the kitchen to the right of the house. Upon arrival there was not enough evidence of residence observed in the house although the provider said he lives in the house. It was explained to the provider that if he does not live in the house he needs to furnish a certificate of occupancy to the Office of Early Childhood stating that the house is listed as a residency and it can be used for childcare. It was also discussed with the provider that as the provider he is expected to be in the program as the primary caregiver and he can not leave a substitute or any other person in charge of the program. The provider was advise that the license will not be approved until a certificate of occupancy is furnished or enough proof of residency is observed.

IMPORTANT NOTES

* It is the provider's responsibility to ensure compliance with all local codes and/or ordinances applicable to single and multi-family dwellings. This includes but is not limited to renovation, construction or expansion of the facility as well as the installation of a swimming pool or auxiliary heater.
 * Only the regulations marked as compliant or non-compliant were monitored or discussed.
